

## **Band Bio:**

In early 2012, a group of professional L.A. session musicians with credits that include performances and recordings with David Foster, Toto, Pink, and All4One as well as TV credits and air time with the hit show TMZ, all sat down one day and decided to form a cover band that could deliver not only the music hits that people remember and love so well, but in a way that caters to the audiences for each specific night. Tired of seeing bands trying to cram “their sound” into an event as opposed to adjusting to connect with the ever changing crowd at any given show, One Adam 12 knows best how to deliver everything from a rockin’ Bryan Adams , Billy Idol or John Cougar tune, to the sultry R&B sounds of an Otis Redding and new sounds of Maroon 5, to the alternative sounds of a band like Stone Temple Pilots, or even latin back beats of something by Santana or island reggae rhythms that capture the true essence of a great time!
